Mounting

Saddle Drive is designed to be mounted on standard dual rail seats, including 7mm diameter rails and 7x9mm carbon rails within the standardized section of rail.

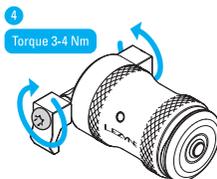

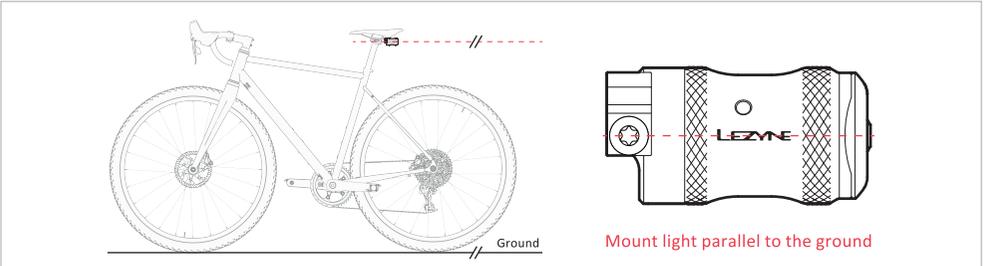

- Loosen rail hooks before installation.
- The mounting of the Saddle Drive hooks can be mounted either in an upward or downward orientation.
- Light should be mounted parallel to the ground.
- Using a T25 wrench, secure the rail hooks on both sides. Equally tighten to 3-4 N·m (30-40 kgf·cm).
